# SEERN

## Vision:

*To foster a true public, private and academic partnership  
- connecting to one common operating picture -  
communicating in 'real-time'*

*Motto: Stay Vigilant - Be Resilient. . .*

*Has 'the system' gone from blinking:*

**R E D**

*to solid RED!!!*

# Landscape

*“As the image of the Twin Towers collapsing, retreats into the rear view mirror of our consciousness. . .we still remain unprepared.”*

*- John Miller (formerly of ABC News)*

- The challenge is still obvious. . . **Complacency**
- The solution is simply too big for the Federal Government **alone**
- While Fusion Centers have become the epicenter for many State and Locals - Emergency Management is today's vital partner because resiliency requires both prevention and **response**.

# ***SEERN* History**

- **U.S. DHS Pilot (HSIN-CI) - 4th of 4 Pilots (Launched October, 2004)**
  - DHS Lessons Learned Information Sharing Portal ([www.llis.gov](http://www.llis.gov))
  - \$7.7 million dollar technology implementation failed - **(July, 2006 - *slide following*)**
  - Assisted with first activation of the National Emergency Resource Registry (NERR) at FEMA HQ during response efforts for Hurricane Katrina (prior version of 'Aidmatrix')
- **Now a Georgia-based 501(c)3 - (Established May 10<sup>th</sup>, 2007)**
  - Executive Board currently has direct representation from: AL (Acting) AR, FL, GA and SC (KY, LA (Acting), NC, MO, MS (Acting) and TN (Acting) seats are pending board approval)
- **Our mission: 'Horizontal' information sharing (regional & operational)**
  - Disasters are typically multi-state events and always. . . 'local'
  - Local Knowledge = Regional Strength = National Security & Resiliency
- **Pioneers in Public - Private partnerships (before it became popular)**
  - Group of eight Summit (G8), Sea Island, GA - (June, 2004)
  - 'Target Midtown, Atlanta, GA (2005) 1<sup>st</sup> standing up of a business operations center in Atlanta
  - Act as translators between '**Red-tape** and **Red-ink**'

# New Madrid Seismic Zone (NMSZ)

# **New Madrid Seismic Zone (NMSZ)**

**December 16th, 1811 - Northeast Arkansas - 2:15 am local time**

**Magnitude ~7.7**

The first main shock

This powerful earthquake was felt widely over the entire eastern United States. People were awakened by the shaking in New York City, Washington, D.C., and Charleston, South Carolina. Perceptible ground shaking was in the range of one to three minutes depending upon the observers location. The ground motions were described as most alarming and frightening in places like Nashville, Tennessee, and Louisville, Kentucky. Reports also describe houses and other structures being severely shaken with many chimneys knocked down. In the epicentral area the ground surface was described as in great convulsion with sand and water ejected tens of feet into the air (liquefaction).

# **New Madrid Seismic Zone (NMSZ)**

**Feb. 7<sup>th</sup>, 1812 - New Madrid, Missouri - 3:45 am local time**

**Magnitude ~7.7 – 8.0**

The BIG One:

The third principal earthquake of the 1811-1812 series. Several destructive shocks occurred on February 7, the last of which equaled or surpassed the magnitude of any previous event. The town of New Madrid was destroyed. At St. Louis, many houses were damaged severely and their chimneys were thrown down. The meizoseismal area was characterized by general ground warping, ejections, fissuring, severe landslides, and caving of stream banks.

# National Level Exercise 2011 (NLE11)

## EXERCISE FOCUS

NLE 2011 will simulate the catastrophic nature of a major earthquake in the central United States region of the New Madrid Seismic Zone (NMSZ). The year 2011 is the bicentennial anniversary of the 1811 New Madrid earthquake, for which the NMSZ is named. NLE 2011 will be the first NLE to simulate a natural hazard.

NLE 2011 activities will take place at command posts, emergency operation centers and other locations to include federal facilities in the Washington D.C. area and federal, regional, state, tribal, local and private sector facilities in the eight member states of the Central United States Earthquake Consortium (CUSEC). The eight member states of CUSEC encompass four different FEMA regions: Alabama, Kentucky, Mississippi, and Tennessee (FEMA Region IV); Illinois and Indiana (FEMA Region V); Arkansas (FEMA Region VI); and Missouri (FEMA Region VII).

**To participate in the National and/or Regional NLE 2011 Private Sector Working Groups, please contact [Private.SectorNLE@dhs.gov](mailto:Private.SectorNLE@dhs.gov)**
